As a passionate and dedicated costume designer, I am known for creating visually striking costumes that capture the depth and complexity of each character, all while consistently delivering projects within budget. My collaborative, inclusive approach nurtures a creative environment where ideas can flourish. Over the course of my career, I have worked on high-profile projects like **The Marvels**, **Doctor Strange**, **The Gentlemen** and more recently **Sense and Sensibility**, **Ink** and **The Conjuring**. I am passionate about sustainability within costume, and love to design contemporary looks peppered with vintage bargains and second hand treasures.
